SAMPLE

Private foundations that already fund organizations like yours

BOY SCOUTS OF AMERICA

EIN 61-0444653 · LEXINGTON, KY · O41 Youth development

\$500,000 to \$2 million · BMF revenue \$825,496

Prepared 2026-10-20. Newest tax year in this build: 2025. Showing 40 of 89 foundations with at least one peer grant.

How peers were chosen

Peers are 501(c)(3) organizations on the EO BMF with status code 01, excluding private foundations (foundation codes 02, 03, and 04). Rule used for this report: same NTEE major group, same state, similar revenue band. NTEE O41 Youth development. State KY. Revenue band: \$500,000 to \$2 million. A blank revenue amount stays eligible because the BMF often leaves it empty. Organizations passing each rule before the cap: ntee minor state 0, ntee major state 144, ntee minor region 30, ntee major region 2863. Peers in this ranking: 144.

Foundations are sorted by a fixed score. Each distinct peer is worth 10 points, capped at 10 peers. Recency is worth 30, 20, or 10 points when the latest peer grant is in tax year 2025, 2024, or 2023. Median grant size adds 20 points at \$50,000 or more, 15 at \$10,000, 10 at \$2,500, and 5 for a smaller positive median. Accepting unsolicited applications adds 15 points. A checked preselected-only box adds 0 points. A filing with no Part XV adds 5 points.

A peer grant counts when the amount is at least \$500 and the recipient was linked to a peer EIN. Smaller gifts stay in the extract and, when they match this organization, in the direct-grants list. The link uses the recipient EIN when Part XV includes one. Otherwise it uses a normalized organization name and state, with city breaking ties. Fuzzy links require a high name score and a shared distinctive word. Recipients marked foundation status I are individuals and are skipped. Grant lines of zero dollars are kept in the extract and left out of the ranking. Application text, the contact, and the unsolicited flag come from the 990-PF that contains that foundation's most recent peer grant in this dataset.

Data lag and limits

Sources: IRS Exempt Organizations Business Master File (Tue, 13 Oct 2026) and Form 990-PF e-file XML for IRS processing years 2026, 2025, 2024. The processing year is when the IRS posted the return. The tax year on each row is the foundation's fiscal year. These returns commonly lag the year a grant was paid by one to two years, so a foundation's newest gifts can be missing.

Peer geography is the configured BMF state list. Foundations can be headquartered in any state. A foundation is listed because it reported a grant to one or more peers. Community foundations and other public charities file Form 990, so their grants are outside this private-foundation report.

Figures and Part XV text are copied from those public filings. This is a research report built from IRS data. It is not an IRS publication and it is not legal, tax, or fundraising advice. A grant to a peer is not a commitment to fund any other organization.
